

## We are always looking for food champs

We are developing our curriculum all the time. We are trying hard to give customers a great cookery experience. Therefore we are always happy to receive applications from enthusiastic foodies, residents in Budapest. You don't have to be Hungarian nor a Chef, though some HU language skills are bonus and so are good cooking skills.

When sending resumé please indicate what cuisine your are good at and/or where you have gained professional expertise.
